Covid Vaccination Camp 1

1. Vaccination for Staff and Students

Recently, Omicron has become a center of focus for us, but other variants of COVID like delta are also still present. Most hospitalization is still due to the delta variant. We already know that COVID vaccines are immensely effective against the delta virus. So, vaccines can be our shield to prevent us from adverse complications due to covid infection.

2. Objectives of the Practice

- * In the wake of Covid, to take care of the well-being of the staff and students.
- * To create awareness among students about health and hygiene.

3. The Context

Vaccines work by preparing the body's own natural defenses to fight a particular infection. Vaccines introduce the immune system to a harmless version the virus which then triggers the creation of antibodies that are fully equipped with instructions on how to defend itself against the infection. In a warzone, vaccines would be shipment of weapons and ammunition with details of your opponent's plan of attack.

4. The Practice

To develop the sense of healthy environment of staff and students the IQAC in its meeting decided to implement Vaccination camp. Further to increase the health and prevent hospitalisation of Covid 19 patient. All staff gathered in camp and vaccinated. Staff and students started realizing the Covid 19 vaccination benefits.

5. Evidence of Success

Getting vaccinated could save your life. COVID-19 vaccines provide strong protection against serious illness, hospitalization and death. There is also some evidence that being vaccinated will make it less likely that you will pass the virus on to others, which means your decision to get the vaccine also protects those around you. Even after getting vaccinated, keep taking precautions to protect yourself, family, friends and anyone else you may come into contact with. COVID-19 vaccines are highly effective, but some people will still get ill from COVID-19 after vaccination. After getting vaccine to staff and students increase confidence and reduce stress

6. Problems Encountered and Resources Required

Medical mistrust is significantly associated with vaccination status and intentions. Parental refusal of vaccines is a growing concern for the increased occurrence of vaccine preventable diseases in children. A number of studies have looked into the reasons that parents refuse, delay, or are hesitant to vaccinate their students. All the staff facing such a problem like

lacking the confidence to take vaccine. o overcome on the same problems, we focused on Set an intention for your practice, knowing why you are doing it, is going to make it easier to be vaccinated.

- **Voter Awareness Program-**

Title: - Voter Awareness Program

2.Objective: - To ensure that people understand their right as voters and exercise that right with full knowledge and responsibility.

- To enhance people's participation in the voting system
- To enhance people's participation in the voting system

3. The Context

To build healthy democracy; all the people of nation should participate in voting program of state and National election.

4. The Practice-

- Counseling made by hon. Tehsildar for new voter often.
- One student appointed as a coordination of voter awareness program
- The student admitted in first year and who have completed age 18 has been registered as a new voter.
- Used Social Media for voter Awareness program.

5.Evidence of success

During the awareness program a huge response observed for the new voter registration. Student were eager to enrolled their name as a new voter for the incoming elections. During this awareness and voter registration program hon. Tehsildar explaining the values and benefits of democracy also they explain the duties and responsibilities of common citizens.

6. Problems Encountered and Resources Required

Attitude and believes regarding the democracy in young generation is a huge task because of their varied interest areas in another field, so to convince them to be a voter had become a hard task for us. Frequently we had to contact them for new registration.
