Stakeholder's Feedback Report

2021-22

1. Feedback process Defined:

Curriculum Design and Development is a significant process in developing appropriate need-based inputs in consultation with the expert groups, designed and prepared by the affiliated university. In this regard, the college provides the necessary arrangements for feedback responses from students, teachers on curriculum teacher related and institutional facilities. The ultimate aim of stakeholder's feedback is to get useful insights for the purpose of improvement in all aspects of teaching, learning, assessment and capacity. Building curriculum, being one of the significant aspects of the teaching learning process, needs continuous and periodical evaluation. After the compilation of obtained feedback from all stakeholders, the same is accessed and communicated to the university and respected Board of Studies.

2. Student's Feedback

The institution is using the student's feedback as a base to make improvements in the existing system after reviewing and analyzing it carefully. The students' feedback questionnaire is categorized in three parts, Feedback regarding the Curriculum, Teachers and overall Institution.

The feedback for curriculum mainly focuses on adequacy of the course, relevance of the subjects with Lab work and with respect to research, learning values in terms of knowledge, concepts, manual and analytical skill, relevance of the subject with post-graduate courses etc.

The feedback on the curricula/syllabi is recorded at the end of academic year. The Curriculum investigation incorporates the data about planning syllabus and overall experience about the programme. In the process of curriculum development and review, the existing curriculum goes through a comprehensive and an elaborated evaluation procedure, which has to undergo various stages with an active contribution of students, teachers and academic experts of other institution.

Feedbacks regarding curriculum is obtained from the students who provide the same for each course, which are duly considered in reviewing it. Student's feedback is obtained at the end of each academic year by using prescribed questionnaire as designed by the institute. Now the Feedback is being collected in online mode.

The feedback for teachers mainly focuses on ability of teachers to deliver subject, regularity and punctuality of teacher, subject knowledge, effectiveness in terms of use of teaching learning material, communication skills, use of teaching aids, use of ICT in teaching etc. Apart from this, it focuses on ability of teacher to control the class, ability of teacher to provide moral values and motivation to students etc. The students are encouraged to share their feedback for teachers and assured to maintain confidentiality throughout in order to obtain genuine views which help to maintain and improve the quality of teaching time to time.

The feedback for institution also focuses on administration and general behaviour of administration and teaching and non-teaching staff and the quality and promptness of services and infrastructural facilities provided to them.

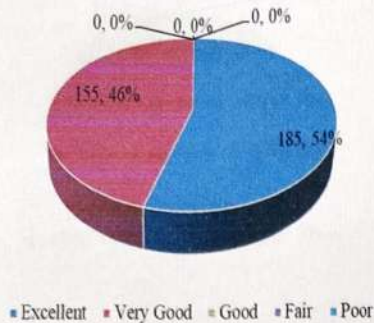

The feedback is opened to the students at the end of every year to give their feedback/suggestions. The collected feedback is analyzed and a report is prepared. The report is submitted to the principal and discussed in the meeting of IQAC/CDC. The principal is given complete autonomy to take the necessary action. The feedback report is also used for positive and constructive changes. Based on the feedback new programmes /courses are introduced.

I. Student's Feedback on Curriculum

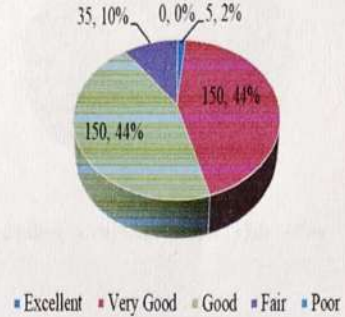

As the curriculum is designed by KBCNMU Jalgaon, so the college does not have much scope for the changes in the curriculum. The college has to adhere to that particular syllabus designed by the university, The college has full freedom and scope for designing the curriculum of certificate, add on courses which are run by the college. More than 90% students are satisfied about the curriculum designed by university. More than 90 % students feel relevance of the subject with practical/lab work. All the subjects have relevance for the post-graduation. 99% students feel that self-learning is also important in the education system. 90% students are satisfied about the overall impression about the curriculum. The average teaching effectiveness index of teacher is 84.

Analysis of Students Feedback on Curriculum

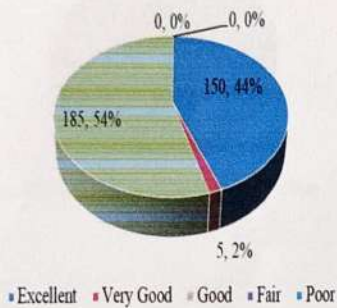

1. Adequacy of course syllabus

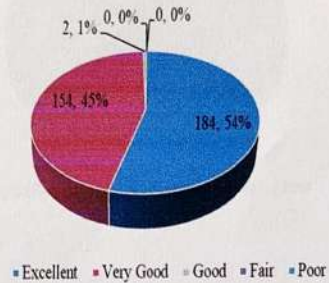

2. Extent of Efforts required by students

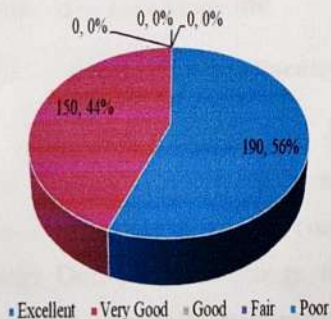

3. Relevance of this subject with Practical/Lab Work

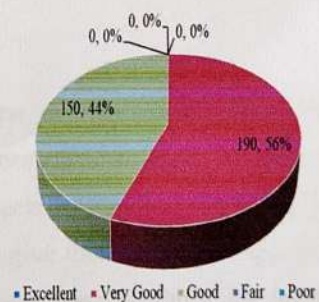

4. Relevance of the subject with respect to research

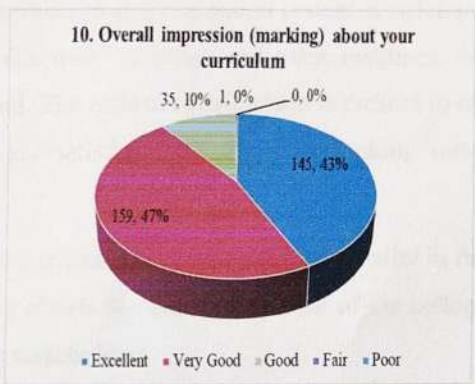

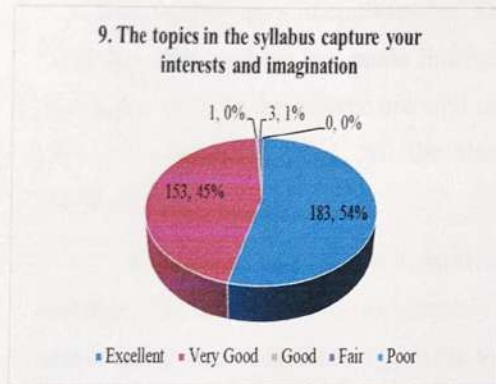

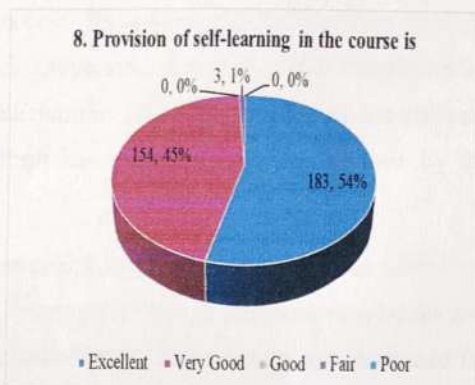

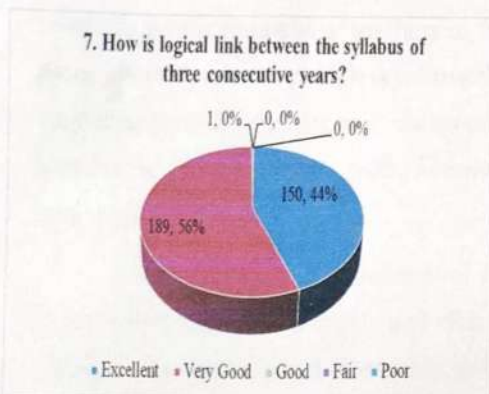

5. Learning values in terms of knowledge, concepts, manual skill, analytical skill

6. Relevance of the subject to post graduate courses

Q.No.11: Any other comment or suggestion about the FY, SY, TY and M.A. & M.Sc. syllabus

The suggestions given by students are: Some student printed at the need of a course on various skills required to lead happy life.

II. Feedback from Faculty:

The faculty members of the institution review on qualitative improvement in content, pedagogy, learning material, student performance, research, and extension activities for Theory/Practical courses and other aspects related to curriculum in their meetings. During these meetings, the faculty members give their feedback/suggestions on the teaching-learning process; research, and extension activities; Similarly, the feedback is received from the faculty members on Programme Scheme, Theory courses, Practical Courses. Appropriate suggestions are forwarded to the concerned authorities for implementation. These all have been discussed with the concerned authorities to implement the suggestions in the Programme schemes and other curricular activities.

As the curriculum is designed and developed by KBCNMU, Jalgaon, there is not

much scope for the college teachers in that process. The majority of the teachers strongly agree about the system which is followed by the university. Board of studies members take care to ensure the current and relevance of curriculum offering. Majority of the students understand the curriculum well. The curriculum has been updated time to time by the concerned authorities.

The teachers update themselves the required knowledge and skills. The admission process of the college is online and effective. Every year college purchase new books and subscribe for journals and magazines in the central library. The teachers are motivated for undertaking research work and they are encouraged to participate and organize seminars, workshops and conferences. The examination and evaluation system is strict and effective. The college has made linkages/MOUs with industries and other institutes. All the laboratories in the college are well equipped. The infrastructure which is present in the college is optimally used. All the teachers are satisfied with the safe drinking water facility.

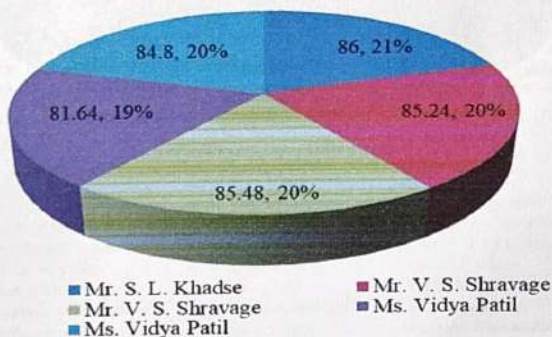

IQAC is functioning well, motivating the teachers and promoting the quality in the institute. The administration is sincerely taking efforts for the development of the college and creating fine coordination with the various stakeholders.

The teachers plan their teaching and organized the classroom very well. The science teachers deliver good demos in the laboratories. The conceptual clarity of the teachers is very good. Every teacher covers the entire syllabus which is prescribed by KBCNMU, Jalgaon. Most of the teachers are regular and punctual. Most students have shown their satisfaction with their classroom experience with the faculties opting for different teaching styles including PPTs, site visits, live examples, prototypes, etc., and incorporating interactive elements, problem-solving methodologies that have real-world relevance and provides appropriate challenges to support and enhance their learning process. Teachers help to nurture students' interest in their particular subjects and provide broader perspectives. Most of the teachers have good subject knowledge. Many teachers help, guide and counsel the students beyond the normal classes and help them to solve their individual problem. Lab facilities are optimally used by the students. Most of the teachers motivate, inspire and inculcate moral values. Almost every teacher comes prepared for the class and explains the topic with proper audible voice. Maximum teachers use blackboards. Students are satisfied regarding the internet facility in the lab and library. Almost all teachers motivate the students for co-curricular, extracurricular and recreational activities. However, some students of Biotechnology were somewhat dissatisfied about Mr. Dhiraj Kolhe's teaching performance. The same is brought to

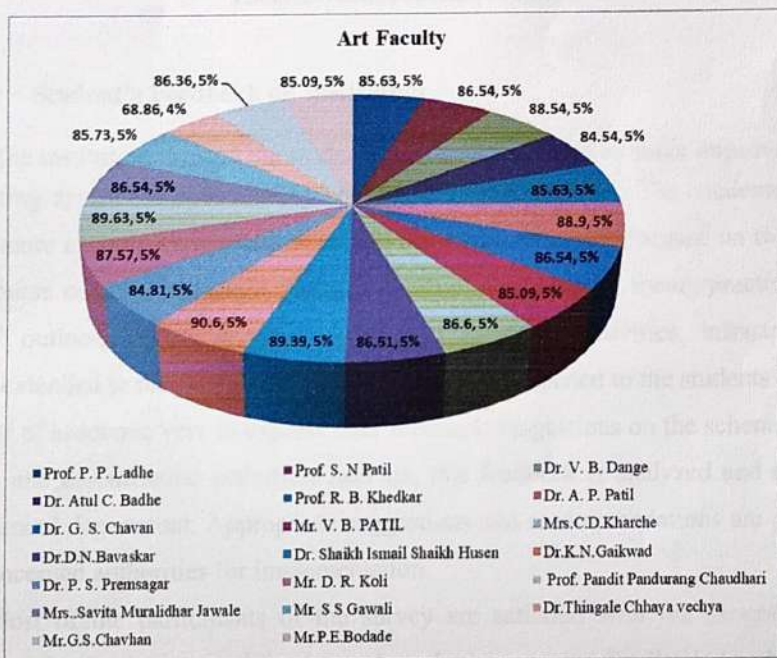

the notice of the principal.

III. Student's Feedback on Institution

The institution is using the students' feedback as a base to make improvements in the existing system after reviewing and analyzing it carefully. The students' feedback questionnaire encompasses quantitative and qualitative answers, focused on the quality of the in-course content, pedagogy, learning material, views about theory/practical courses, teachers' outlook, library services, sports and extension activities, infrastructure and services extended to them by the institute. The survey is opened to the students once a year at the end of academic year to express their feedback/suggestions on the scheme, teaching-learning, and co-curricular activities; later on, this feedback is analyzed and shared with the concerned department. Appropriate suggestions and recommendations are put forward to the concerned authorities for implementation.

Most of the participants of the survey are satisfied with the program scheme. Continuous improvement in the scheme has shown positive feedback by the students. Content of the course and conduct of theory and practical courses have gained the interest of most of the students. The syllabus, and teaching schedule are available on the college website. They are satisfied with allocated courses to them for teaching, activities conducted in the form of guest lectures, seminars and workshops, etc. during the session 2021-22. Only a few students express their struggle about the resource's availability

terms of reading material and equipment/software used in laboratories whereas most of them expressed their satisfaction for the reference material available in the library is sufficient to meet the theoretical as well as practical aspects of the course. Institute has also provided an extension to students enabling them to view e-books and e-resources using credentials.

Additionally, the majority of students are satisfied with the software and equipment provided by the Institute and about quality of lectures, tutorials, and interactions with external experts. The same fundamentals have been applied by the students in the laboratory and via practical to enhance their understanding and concept clarity to relate theoretical components in to practice. Institute has also procured a research lab (Chemistry) in which the lab instruments have been placed to provide experimentation and testing facilities to the research students within and outside the campus.

More than 95% students are satisfied with office and administrative services. The behavior of HODs is gentle and kind towards students. Admission process is online. The notices and exam timetable are displayed through whatsapp groups of the respective classes and through college website. More than 95% students' view is that teacher's attitude towards society is very good.

More than 97% students are satisfied with library staff, services and facilities. Reading room facility is frequently used by the students. The students are satisfied with the infrastructural facilities like classrooms, labs, computer, LCDs, common room, canteen, safe drinking water and college website. The Sports department of the college is an asset. It has golden history of success in various games. Most of students are satisfied with the facilities provided by the sport department.

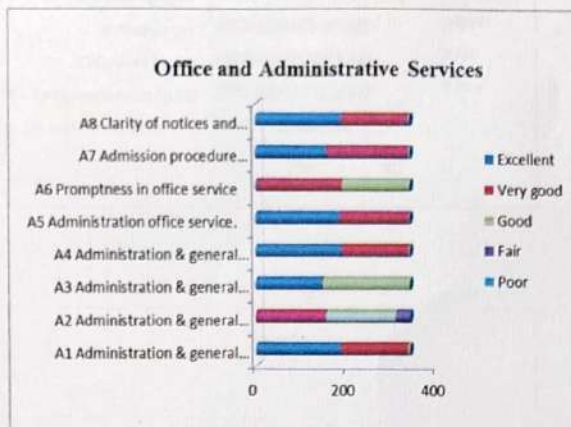

Internal and external exams are strictly and effectively conducted. The interview techniques, practical trainings and industrial visits are conducted in the college. The college also provides career guidance to the students. Students are satisfied with the student's welfare schemes. Personal guidance and counseling have been provided to weak students who are struggling with low CGPA, facing psychological or social issues and suggest possible way outs to the students to deal with their present situation. At the same time parents are also kept in line with the situation to motivate and support their ward in all possible ways. For the benefit of the students various co-curricular, extracurricular and extension activities are organized in our college. Majority of the students avail the benefits of these activities. They are satisfied in participating in various activities.

Approximately 200 students participate in NSS activities. Every year our students

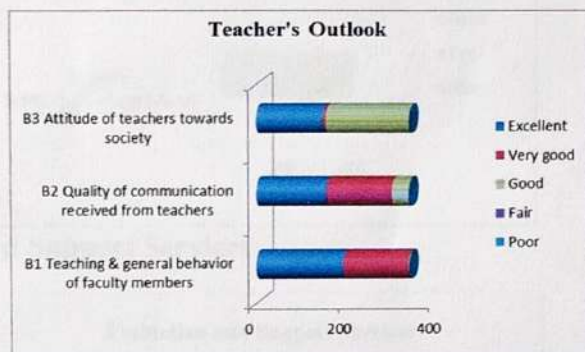

actively participate in youth festival. General discipline is strongly maintained in the college. There is not a single case registered of sexual harassment or ragging in the academic year. Teaching effectiveness index is 84.
