

“Best Practice”

MTES,S

SMT. G. G. KHADSE COLLEGE MUKTAINAGAR,

Tal: Muktainagar, Dist: Jalgaon (MS)

Estd: 1990

Blood Donation Camp

1. Title: Blood Donation Camp

2. Objectives of the Practice:

- To create awareness about blood donation among the staff and students.
- To foster a community of youthful individuals who can be reached in times of medical emergencies.
- To create awareness among students about health and hygiene.

3. The Context:

The Blood Banks normally face the paucity of availability of blood for the needy and medical emergency cases. Blood donation is widely regarded as the most fortunate form of donation, as it not only instills the virtues of compassion towards others but also offers significant assistance to humanity that cannot be achieved through monetary contributions alone. The requirement for external blood supply becomes crucial during significant medical procedures, accidents, and various traumatic situations. The undeniable reality we encounter on a daily basis is that there is no substitute for natural blood. Regardless of geographical location, economic status, or population size, there is consistently a shortage between the amount of blood collected and the demand for it. Hence, as a part of social service, the college organizes Blood Donation Camp and hands over to Blood Banks.

4. The Practice

This initiative has inspired multiple stakeholders to coordinate 'blood donation' drives. The advantages of this initiative are:

- It serves as a valuable source of blood for blood banks.
- Organised programs for awareness and appreciation for the importance of 'blood donation'.
- The collective effort helps alleviate fears and encourages new students to proudly become blood donors.

5. Evidence of Success

The active involvement of students can be regarded as the 'proof of achievements' of this endeavor. This endeavor awards with certificate and blood donor card. The most significantly; the esteemed title of 'blood donor', 'healthy individual', 'patriotic person', and 'individual with a sharing mindset', which transforms them into accountable citizens.

The students overcame the fear about Blood donation and are ready to donate it to the needy, in case of emergency. The programs organized throughout the year on Health and

Hygiene help in creating awareness among the students which helps in the organization of other programs. The collective effort helps alleviate fears and encourages new students to proudly become blood donors.

6. Problems Encountered and Resources Required

Certain students who expressed interest were unable to donate due to being either underweight, having low hemoglobin levels, or experiencing both issues.

- Occasionally, students or faculty members are unable to participate in blood donation camps due to time constraints such as exam schedules and class timings.
- The lack of timely information dissemination is also a contributing factor.
- Moreover, parents may disapprove of blood donation due to unfounded fears or superstitious beliefs.

- **Voter Awareness Program-**

Title: - Voter Awareness Program 2022 ("Making Elections Inclusive, Accessible and Participative.")

2.Objective: -

- To ensure that people understand their right as voters and exercise that right with full knowledge and responsibility.
- To enhance people's participation in the voting system
- To educate the voter about the importance of vote in democratic country like India by voting for a suitable and right candidate.

3. The Context

To build healthy democracy; all the people of nation should participate in voting program of state and National election.

4. The Practice-

- Counseling made by hon. Tehsildar for new voter often.
- One student appointed as a coordination of voter awareness program
- Conducted a campaign to register the students admitted in the first year are registered as a new voter.
- Used social media for voter Awareness program.
- The Aadhar Card linking training

5.Evidence of success

During the awareness program a huge response observed for the new voter registration. Students, after counseling, enrolled their name as a new voter. During this awareness and voter registration program hon. Tehsildar explaining the values and benefits of democracy also they explain the duties and responsibilities of common citizens. Students realized the importance of voting in democracy and good governance.

6. Problems Encountered and Resources Required

Wrong attitude, approach and beliefs regarding the democracy and governance in young generation is a huge task. To convince them to be a voter had become a hard task for us. Frequently we had to contact them for new registration.
