**Abstract:** Child kidnapping, missing child and child harassment are the world-wide problem related child safety. The children of age group 4 to 8 years are innocent and subject to kidnapping in frequent cases. Parents are always worried regarding their children's security mainly when they visit crowded public places and travel in widely physically located places. Number of applications is being developed to guard children in every manner. This paper introduces a Parent-Hook product which is designed for child tracking if the child is lost. The Parent-Hook is a safety band without the sensor or any chip harmful for the children can be put on the wrist of the children. This band is easy to carry which is made up of soft cotton webbing with parent contact information with QR Code and Cloud URL.
