A Brief Report

Department of Geography Celebrate the World Population Day in this program Prof. Dr. R. V. Bhole delivered lecture on World Population Day. In his lecture he introduced population expansion in our world over the past 150 years has made it one of our largest crisis. World Population Day is observed annually on July 11 in order to draw attention to the issue of overpopulation. The purpose of World Population Day is to raise awareness of population-related issues.
