Organized by	Department of Zoology
No. of Participants	18

A Brief Report

Department of Zoology organized Guest lecture on “Role of Birds in Ecosystem and their Conservation Programme” to gain the knowledge about Indian Birds. Birds help **plants grow, pests stay under control, diseases stay low, and ecosystems stay balanced**. Protecting birds means protecting the entire environment. Birds do a *lot* more than just look pretty or sing nicely. They're key players in keeping ecosystems healthy and balanced.
