A Brief Report

Department of Student Development organized online guest lecture on Preparing for Competitive Examination, In her lecture Mrs. Shital Lekurwale discuss about how to face exam. She also discussed good students have a question that after completing their graduation, we continue to prepare for the competitive exam and if we fail in it, then what about our future? Will you get a job next? Many a times, as we want to send our children for competitive exams, there is a question whether to choose arts or science after 10th. Actually, students should turn to science after class 10th. This improves English. You can get all the information and guidance you need through the internet. A lot of information regarding the competitive exam is available on many websites and YouTube. Elocution and writing style should be improved.
